

INTERGOVERNMENTAL AGREEMENT

BETWEEN

THE STATE OF ARIZONA

AND

THE CITY OF COOLIDGE

THIS AGREEMENT is entered into 11 JANUARY, 1994, pursuant to Arizona Revised Statutes, Sections 11-951 through 11-954, as amended, between the STATE OF ARIZONA, acting by and through its DEPARTMENT OF TRANSPORTATION (the "State") and the CITY OF COOLIDGE, acting by and through its MAYOR and CITY COUNCIL (the "City").

I. RECITALS

1. The Section 18 Program, authorized by Section 313 of the Surface Transportation Assistance Act of 1978, which amended the Urban Mass Transportation Act of 1964, offers Federal assistance for public transportation in rural and small urban areas by way of a formula grant program to be administered by each state.

2. The State desires to participate in the Section 18 Program. The Governor of Arizona has designated the Arizona Department of Transportation to receive and administer Federal funds under this program.

3. The City has expressed a desire to obtain financial assistance for providing rural public transportation services by filing an application for such assistance, and said application has been approved by State and the Federal Government. The conditions and assurances of said application are included herein by reference.

4. The State, under the authority granted by Arizona Revised Statutes Section 28-108, and the City, under the authority granted by Arizona Revised Statutes Section 40-1152, wish to enter into and execute a contract for the purpose of implementing a Section 18 Project for Federal reimbursement by the State as grant administrator.

NOW THEREFORE, in consideration of the foregoing recitals and certifications and of the covenants and agreements by the parties made to be kept and performed, the parties agree as follows:

II. SCOPE OF PROJECT

1. The City shall undertake and complete the activities as proposed in the approved application for Section 18 funds. Such activities, hereinafter called Project, shall be accomplished as described in the Project Description, Attachment A hereto, and by this reference made a part hereof.

a. The cost of the Project is estimated to be \$40,633.00 as indicated in Attachment B, Project Budget, and by this reference made a part hereof. The federal share of Project costs is limited to \$20,779.00. The Department of Transportation and the State of Arizona assume no financial obligation or liability hereunder.

b. The method of payment shall be reimbursement of eligible costs incurred, up to the limits described herein. In accordance with the payment and reporting schedules prescribed by this Agreement, the City shall submit reports and Project billings to State for reimbursement of non- operating and operating expenses. Approved capital expenses may be billed for reimbursement as incurred. Claims for payment will be processed by State upon receipt and approval of appropriate reports, documentation and invoices. All reimbursements are conditioned upon receipt by State of federal funds designated for said purpose(s). In no event shall the total amount reimbursed by State exceed the federal share approved for the Project. The parties expressly recognize that all payments are to be made by State solely from federal funds made available to State for said purpose.

c. Billings for reimbursement of eligible expenses and reports of contract activities shall be submitted monthly on forms provided by State. They shall be signed by the Project Manager. Each billing report period shall be the last day of the report period.

d. Each request for reimbursement must be accompanied by a reimbursement description which will include information to verify the reimbursement request amount. Overruns in line items shall not be reimbursed unless prior approval has been obtained from the State.

e. All items of \$300 or more, excluding payroll, must be accompanied by an invoice before reimbursement can be processed.

f. Each activity report shall include, but not be limited to, data regarding ridership, mileage, operating hours, fare recovery ratio, cost per passenger trip, cost per mile, non capital cost per service hour, passengers per service hour, passengers per mile. State may impose a penalty of a 5% reduction of total federal reimbursement per billing period for all billings or reports submitted more than 30 calendar days after the end of the billing period. The penalty may be deducted by State from the reimbursement for the last billing. An exception will be made for the final billing, which may be submitted up to 60 calendar days after the end of the final billing period, before becoming subject to the late penalty.

g. Eligible costs are those costs attributable to the Project and allowable under the approved Project budget and the provisions of:

- 4) OMB Circular A-128, "Audit Requirements."

h. No costs incurred by the City prior to October 1, 1994 or subsequent to the termination date will be eligible for reimbursement as Project costs, unless prior written approval from State is granted. All costs charged to the Project shall be supported by properly executed payrolls, time records, invoices, vouchers, warrants, and any other support evidencing that those costs were specifically incurred in the performance of the Project. All documentation of Project costs shall be clearly identified and readily accessible. Within 60 calendar days after completion of the Project period, the City must submit a final invoice, narrative and financial operating statement showing the total expenses and revenue of the Project. Anti-Drug compliance costs shall not be incurred by Projects until authorized by State in writing.

i. The Federal share payable for Project Budget expenses shall be subject to the following limits:

1) For capital expenses, shall not exceed 80% of the net cost.

5) For training costs, shall not exceed 100% of the net cost.

j. At least half of the City's share for all expenses must be provided in cash from sources other than Federal funds or from approved in-kind expenses. The remaining half of the City's share may be made up of unrestricted funds from other Federal programs as described in Attachment B, Project Budget.

k. All donation and advertising revenues received in excess of the budgeted local match shall be used to reduce the federal share of the Project budget.

1. Lien on Project Equipment - To the extent of financial assistance provided, State shall hold a first lien on all capital equipment acquired under this Agreement in the amount of the federal share of the equipment cost. State shall also hold a first lien on any computer hardware, software or office equipment provided to the City and paid for by State.

2. Use and Disposal of Project Equipment

a. City shall observe the property management standards as set forth in OMB Circular A-102, Attachment N. The City further agrees that the Project equipment shall be used for the provision of transportation service within the described service area and in the manner described in Attachment A, Project Description. If, at any time, the contract with State for the described service is terminated or Project equipment is not used in this manner, or is withdrawn from transportation service whether by planned withdrawal or casualty loss, the City shall notify State within 72 hours of such event, and shall remit to State a proportional amount of the fair market value, if any, of the property, which shall be determined on the basis of the ratio of federal financial assistance to the actual cost of the equipment. Fair market value shall be deemed to be the value of the property as determined by competent appraisal at the time of such misuse or withdrawal from use, and as approved by State. In the event of loss due to theft, casualty or fire, the damages paid by the insurance carrier or payable from a self-insured reserve account shall be considered fair market value. In no event is salvage value to be considered fair market value. Upon State's receipt and approval of said payment, State's lien shall be released.

b. Records

1) The City shall keep satisfactory records with regard to the use of equipment purchased under this contract and shall submit to State upon request such information as is required in order to assure compliance with this clause. The City shall submit to State during the period of required use of Project equipment, a certification that the equipment is still being used in accordance with the terms of this Agreement.

2) Project vehicles may also be used for non-Project purposes. Therefore, the City agrees to keep accurate vehicle mileage logs to distinguish between Project and non-Project mileage. State will reimburse vehicle related operating expenses in proportion not to exceed the number of actual driven Project miles as a percentage of the total miles.

c. The Project equipment shall at all times be operated in a safe, prudent, lawful manner and within the capacity limitations established by the manufacturer. The City shall maintain the Project equipment in safe and mechanically sound condition and shall keep accurate records of such maintenance. The State shall have the right to conduct periodic inspections of City's records and the Project equipment to verify compliance with this requirement.

d. The City agrees to conduct a persistent and visible promotional program in order to insure that all facets of the service are known by and available to the general public, and in order to increase ridership on all trips. Acceptable promotional devices and strategies include, but are not limited to: distribution of fliers and handbills; posting of signs and posters in public gathering places; radio and television announcements; press releases and articles in local, church, and organization newspapers, bulletins and newsletters; and printed route maps and schedules. The City shall provide State with copies or samples of promotional materials used. - 6) Summary of local public relations activities (present and planned) to generate public support for and use of transit. Examples of press (media) coverage, involvement in community activities, etc.

e. As part of the annual marketing plan, the City is required to conduct formal and/or informal market analysis to determine what improvements can be made to the Project to better serve the general public. Possible analysis techniques include on-board rider surveys, and surveys of the general public via mail and telephone, and questionnaires in the local newspaper and other techniques as set forth in the City's marketing plan.

f. The City shall display, in a manner acceptable to State, a decal or similar sign on the exterior of the Project vehicles indicating that this device is open to the general public.

g. Changes to fares, routes, schedules, and the schedule of activities in Attachment A, Project Description, may be made with prior written approval from State without requiring a written amendment to this Agreement.
